Congress of the United States  
House of Representatives

June 26, 2008

The Honorable Joseph T. Kelliher  
Chairman  
Federal Energy Regulatory Commission  
888 First Street, NE  
Washington, DC 20426

Dear Chairman Kelliher:

The City of Hastings, in my congressional district, has applied to the Federal Energy Regulatory Commission for an amendment of license for the Mississippi River Lock and Dam No. 2 Project (P-4306). I ask that you give full and fair consideration to this application.

Pending your approval, Hastings, in partnership with Hydro Green Energy, LLC, will deploy the nation's first commercially-operational, federally-licensed hydrokinetic power facility in the United States. As you know, hydrokinetic power holds great promise as a new source of clean, domestic and environmentally-friendly renewable power. I am proud to have this exciting new renewable energy project in Minnesota's 2<sup>nd</sup> Congressional District and appreciate the opportunity to comment on this matter.

Thank you for your attention to the City of Hastings' application. Please contact me should you wish to further discuss this matter.

Sincerely,

A handwritten signature in blue ink that reads "John Kline".

JOHN KLINE  
Member of Congress
